

# LT9000

## 10-Foot Quick-Release Lighting Truss

LIGHTING STANDS

### FEATURES AND BENEFITS

This truss system includes two 5-foot sections that lock together to form a complete 10-Foot Truss. Then easily, safely and quickly attach this to your lighting stand truss by opening the quick-release clamp and wrapping it around your lighting stand or hanger shaft. Turn knob to tighten and your in business! Recommended with two LS/SS7770 10-Foot Stands. Mounting hardware included.

Dual locking knobs attach trusses together. All pieces are interchangeable and will always line up with one another.

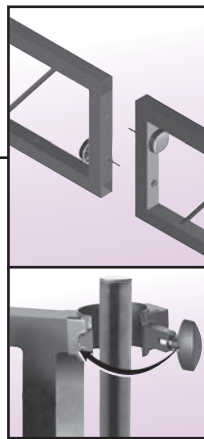

Each 5' Truss holds up to 8 par cans.

Heavy-duty 35mm square tubing holds up to 450 lbs.

Truss attaches to shaft with easy swing-lock system. (See below for instructions)

### How It Works:

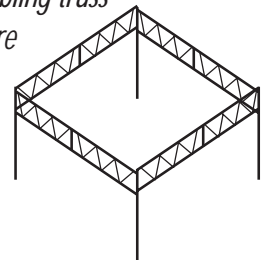

Attach and assemble Truss System with easy dual knobs. Lock truss sections together BEFORE attaching to lighting stands or hanger assembly. Assemble by inserting the threaded ends of the 2-inch round knobs into the LT9000 Truss System and tightening knobs. Truss must be attached by two people (one person on each end) so that each end of the Truss is at the desired height at the same time. Swing-lock system attaches to lighting stand shaft with easy-to-use thumb screws.

Customize Your Lighting Trusses!

Use the LTA9500 Hanging Support Bar and hang an entire truss system! Our Truss Systems also allow you to construct various floor plan layouts. Customize your lighting layout by assembling truss systems in either a square or pentagon shape.

### PRODUCT SPECIFICATIONS

- > **Weight Capacity:** 450 lbs.
- > **Width:** 11'
- > **Tubing:** 35mm Square Tubing
- > **Color:** Black Powder Coat Finish
- > **Included:** Mounting Hardware

Model#: **LT9000**
